

FIG. 1

FIG. 2

FIG. 3

FIG. 4

A cross-sectional view of a multi-layered structure 20'. The structure consists of several layers. The top layer is labeled 26. Below it is a layer with a wavy pattern, labeled 40'. This is followed by a layer with a cross-hatch pattern, labeled 30'. The bottom layer is labeled 36'. A central region within the structure is labeled 56'. A curved arrow labeled 58 points to the central region.

This diagram shows a second embodiment of the device. It features a substrate 120 with a top layer 127 and a bottom layer 128. A series of vertical structures 140 are formed on the top layer 127. A layer 126 is disposed on the top layer 127, and a layer 122 is disposed on the bottom layer 128. A series of vertical structures 136 are formed on the bottom layer 128. A layer 132 is disposed on the bottom layer 128, and a layer 130 is disposed on the top layer 127.
